WELCOME

Reflecting on a Incredible 2023

I want to take a moment to express our heartfelt gratitude for your unwavering support and trust in us throughout the year. Your continued loyalty has been pivotal in making 2023 a year of great success and growth.

We are thrilled to reflect on our accomplishments and milestones over the past year. 2023 saw the introduction of the James Frost Vinoteca with our excellent partners. The community it is building has been nothing short of incredible and wouldn't be possible without your valued patronage. As always, your feedback and insights have been invaluable, and we are excited to expand the Vinoteca in 2024.

In the spirit of the season, we wish you a joyous holiday and a prosperous New Year filled with health, happiness, and success. May 2024 bring you even more reasons to smile and celebrate.

Once again, thank you for being an integral part of our journey in 2023. Your trust and support mean the world to us, and we are excited to continue our successful partnership in the year ahead.

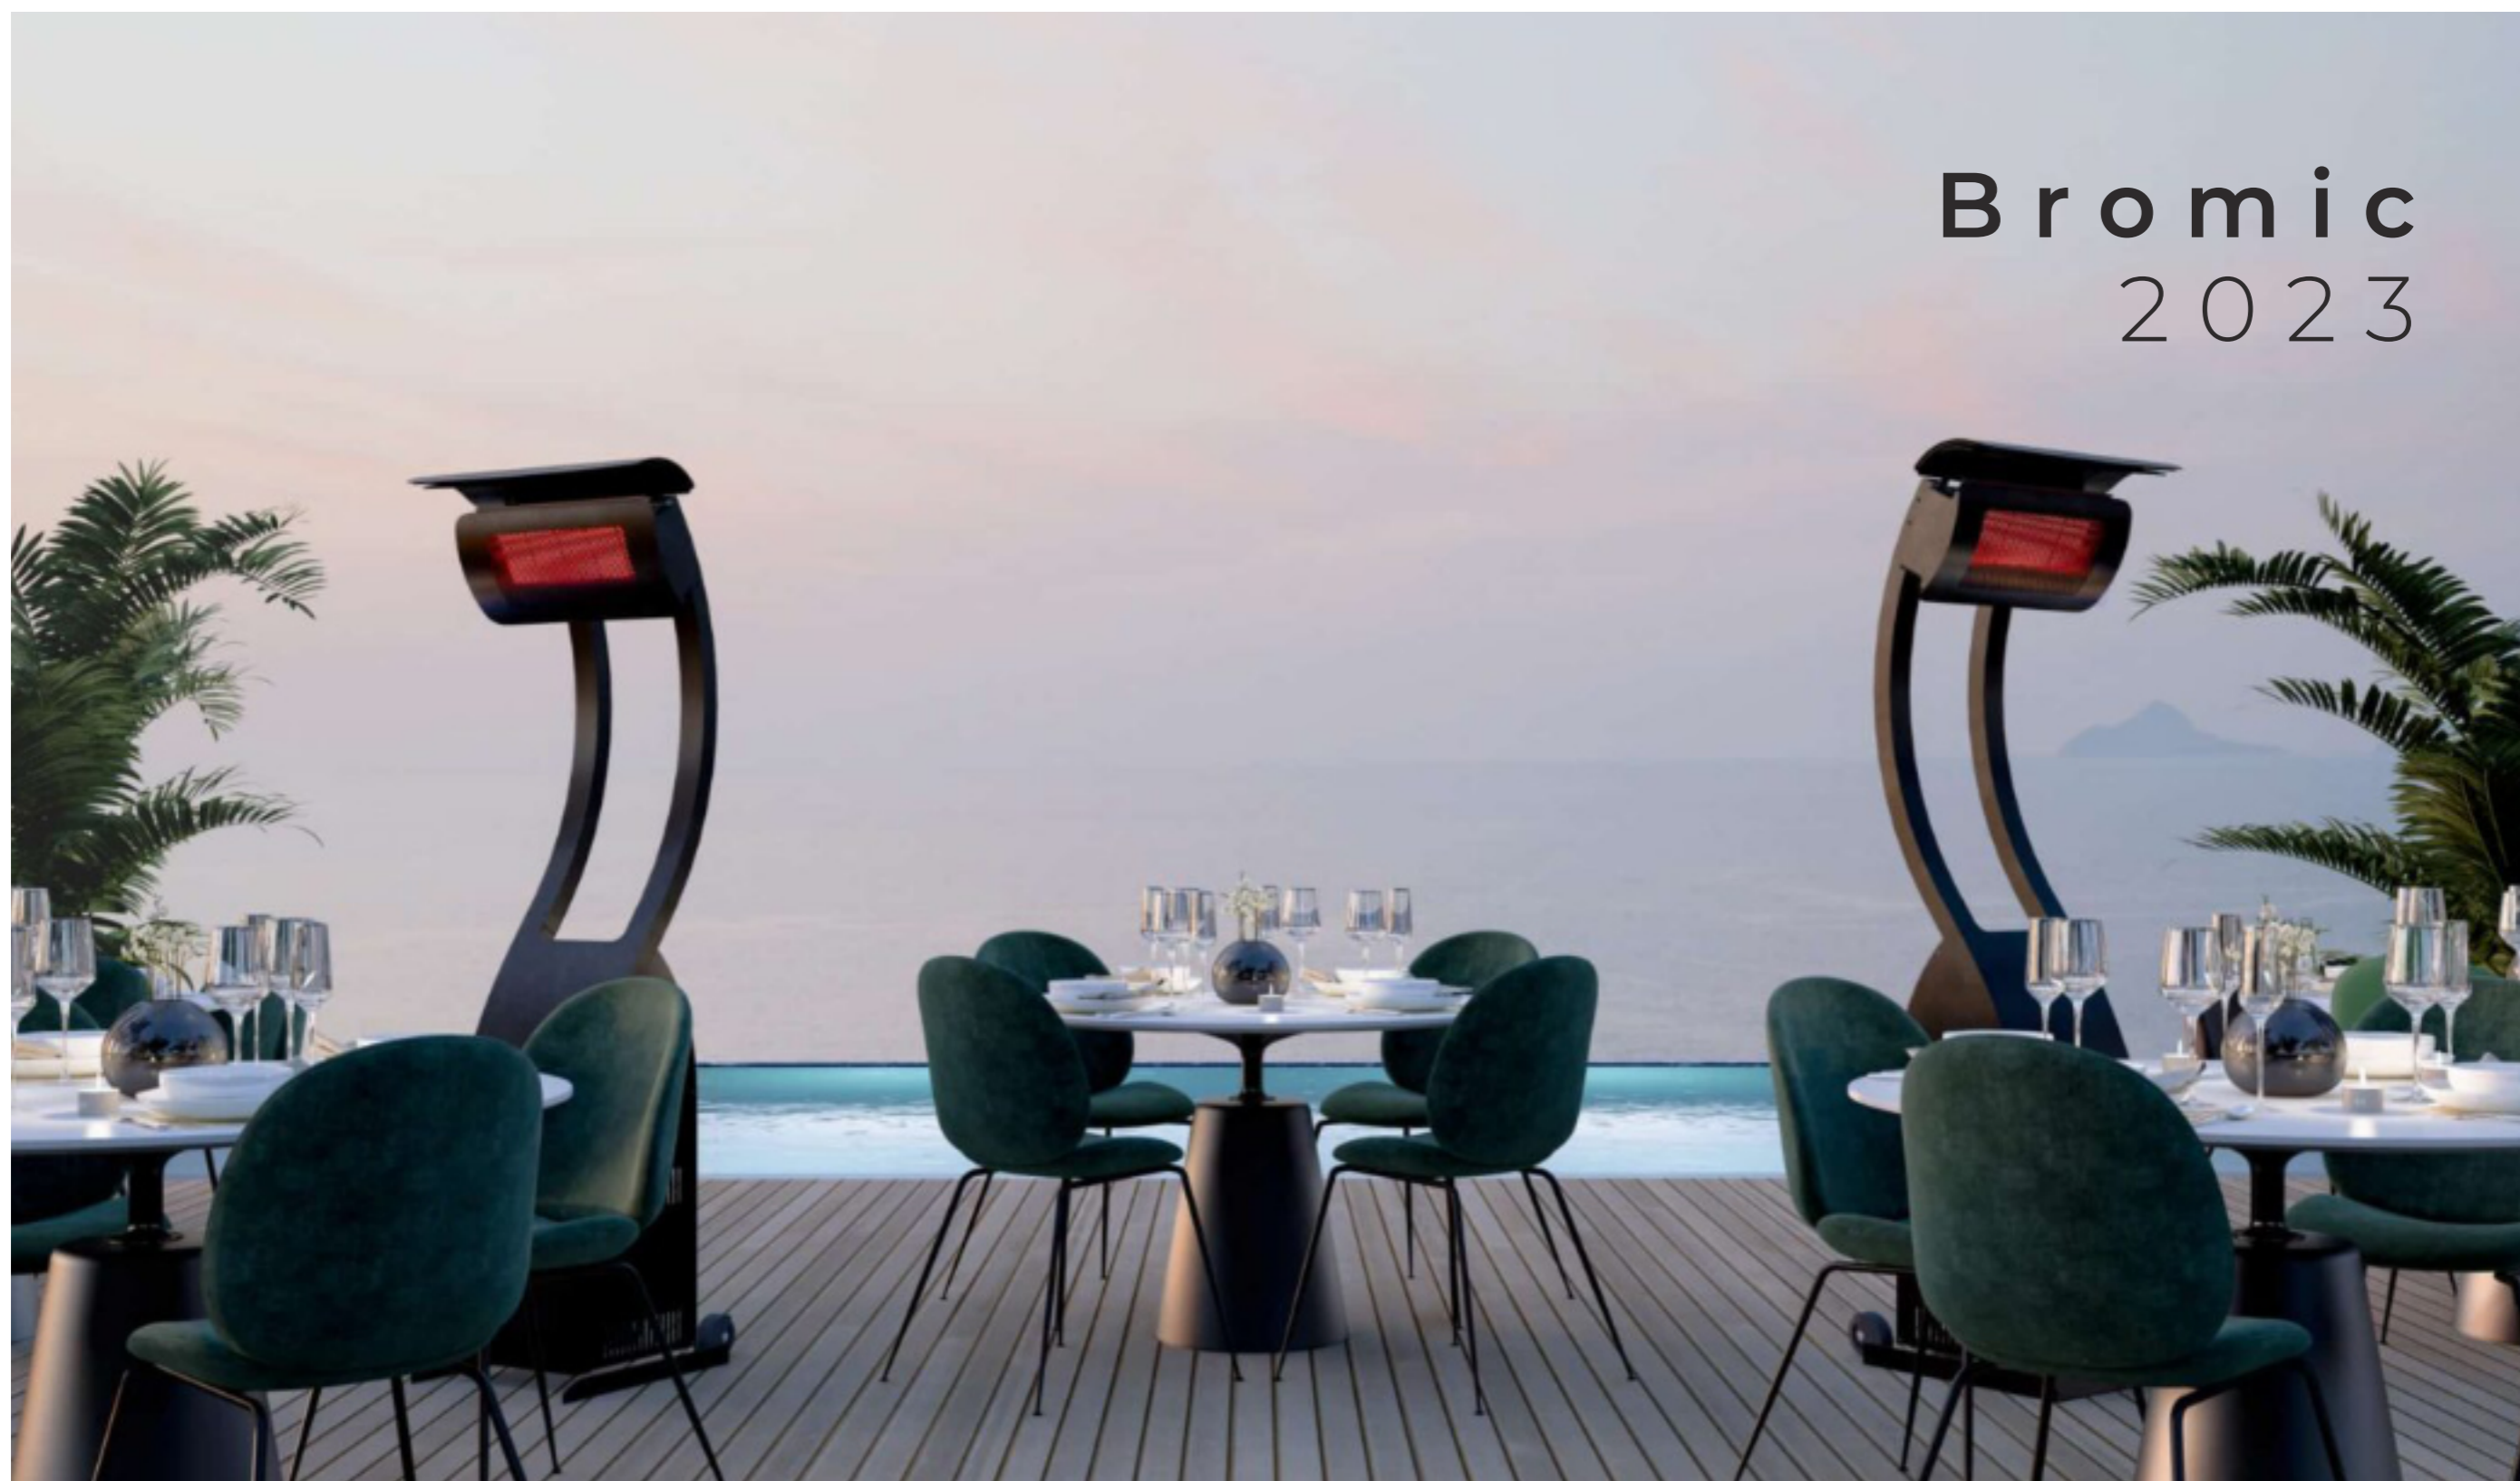

James

Our welcome box to the James Frost Vinoteca includes a 2016 Historia De Santalba and two handmade Kimura Pivo 390 wine glasses enclosed in a walnut box lined with reindeer moss. These are numbered bottles of a small from Bodega Santalba S.A. We have a limited supply of this once-in-a-lifetime wine!

Where Style Meets Function

Bromic Heaters are constructed from premium materials to deliver outdoor heating products that provide the perfect balance of performance, reliability and beauty. Available in gas, electric, and portable models, there's a suitable option for every environment.

Leica is German engineering at its best.

The Leica ideal is an integral part of the culture of seeing. Leica has a long history of focusing on perception and has developed innovative instruments that offer a unique experience. The result is a renowned series of cameras and lenses and a superb range of sport optics, including high-aperture and laser rangefinder binoculars and now short-throw projectors.

ASKO

Wine Cabinet

Get to know your wine.

The Asko Wine Climate Cabinet contains different temperature zones for different types of wine, each of which can be meticulously controlled. It provides perfect light conditions, it monitors humidity, and it's virtually free from vibrations. But unlike a wine cellar, it is internet-connected so you can document, catalogue and uses Vinino to give you information about your wine. So in that respect, it gives you the best of both worlds. And it'll also look good in your living room - or wherever you decide to place it.
