

BANG & OLUFSEN

Multiroom Audio

Speakers, simply connected.

No cables, no fuss. Connect speakers quickly and easily through WiFi, and be connected everywhere. Control the whole experience from the palm of your hand: play what you want, the way you want.

Start With One.
Connect More.
Listen Everywhere.

Beosound Level

Beosound Stage

Beosound Balance

Speakers that talk to each other.

Add luxury to your existing setup or start a new one with Bang & Olufsen Connected Speakers. Compatible with any speaker supporting Chromecast™ or AirPlay 2.

Seamlessly connect over WiFi and enjoy with all your favourite streaming services and devices.

Connect the way you want.

Choose your preferred way to connect over WiFi, whether that's with Chromecast™ or Apple AirPlay 2. We've got you covered.

Stream the way you want.

Play whatever you like from your favourite streaming services, directly from your Bang & Olufsen connected speaker.

Connect. Control. Play.

A simple way to connect Bang & Olufsen products past and present. Stream instantly, watch TV or play vinyl from your iconic turntable – Beolink makes it all work together. Control your whole set up with one remote. Start or stop musical moments throughout your home with One Touch controls.

Striking stereo sound. No strings attached.

A new dimension of music is now only a click away. With Stereo Pairing, you can wirelessly connect two of the same speakers together to be immersed in more detail, depth and scale than ever before. Hear it all – just as the artist intended.

Product Overview

Beosound Level

Coffee tables, work desks, bookshelves – Beosound Level settles right in. Designed to look and sound incredible anywhere, it seamlessly connects to WiFi while being free to move. Long day ahead? 16-hour battery life has you covered. Music in the kitchen? It's splash resistant. Sync it up. Pick it up. And go.

Beosound Stage

Take the TV experience to a different level with Beosound Stage, a beautifully crafted soundbar that sounds as good as it looks. Beosound Stage enhances viewing pleasure with a combination of the latest in audio technology and seamless design – as well as being powerful enough to avoid the need for a separate subwoofer.

Beosound Balance

Smart. Loud. Beautiful. With every crisp note and beat, Balance builds a soundscape. Seven uniquely placed drivers disperse music in 360 degrees – clear acoustics up front, powerful enhancers at the back. From the table to the wall, your music fills the room. With punchy bass, clear mids, and pure acoustic bliss.

Beolab 28

Don't be fooled by the looks. Press play and move through huge stereo soundscapes with Beolab 28. Years of acoustic excellence have led to this moment: hear every boom, breath and beat with a new level of clarity and depth. And when it comes to bass, it hits. Hard. Studio-grade quality, cinema-level goosebumps.

Beosound Shape

Beosound Shape is a modular speaker system for design conscious music lovers. Hanging like a unique piece of art, it delivers immersive sound staging and the ability to improve your room acoustics with its built-in noise dampers. No two configurations are likely to be the same, and that's the whole beauty.

Beoplay A9

The days of hiding your stereo are over. We designed Beoplay A9 like a beautiful piece of furniture — with carefully selected materials and uncompromising attention to detail. The result is an iconic piece of music design you can put on display anywhere and experience your music the way the artists intended.

Beosound Edge

Imagine a coin elegantly balancing on its edge, ready to roll at the lightest touch. The Beosound Edge is a speaker and minimalist design object in one. Designed for intuitive touch and motion, it's an unbroken circle of clarity and beauty. Prepare to welcome a unique and powerful performance into your home.

Beosound 2

Beosound 2 is designed for flexibility. Delivering the morning news from the kitchen table or playing discreetly from the living room floor. With its clean lines and small footprint, it has an adaptable design that fits in anywhere in your home and delivers a 360-degree sound experience that fills the entire room.
